E- Governance Policy

Objective

1. Promoting and Implementing of E-governance in various functioning of the institution

2. Promoting transparency and accountability

3. Achieving efficiency in the overall functioning of the institution

4. Achieving paperless administration in the institution

5. Facilitating online internal and external communication between various departments / Members of the institution

6. Providing easy access to information

7. Making the institution visible globally.

8. Feedback

Policy

1. In order to provide simpler, robust and efficient system of governance, it is decided to adopt and implement e-governance in maximum activities of the functioning within the Institution

2. The institution has in place e-governance in some aspects of administration, finance and accounts, student support like assignment , quiz through Whatsapp services, library usage and examination result processing and website.

3. The society has resolved to implement e-governance in many more areas and with this aim in view we have drafted this policy framework.

For convenience purposes, the policy is divided into various areas of operation. These areas of operation are illustrative and the society reserves the right to implement e-governance even in the areas not enlisted herewith.

1. **Website:** The website of the college is revamped taking into account the needs of all the stakeholders. The website acts as a mirror of the college vision and mission, information about all programmes offered, facilities provided, activities, important notices etc which is made easily available to the outsiders. For this purpose, a third party separate service provider/web designer is appointed by the head of the institution and college handed over this responsibility to college faculty members. Along with it, training has been given to the existing staff to undertake the responsibility of website administration and updating at the college level. The internal communication between the staff is facilitated with institutional email IDs. A Website Maintenance Committee is formed for this purpose.

2. **Finance & Accounts:** For ease of maintaining accounts and fee collection, the institution is using Tally Software with the support of commerce department . With new accounting methods and compliances, it has become necessary to procure other software as well. The institution as per the direction of the society is planning to use Tally Software as instructed by the auditor. Appropriate security measures should be taken for maintaining confidentiality of the transactions. Training to the existing non teaching staff and updating of the existing software must be done on timely basis.

3. **Library:** The institution has one of the best library facilities provided to the staff and students. To continue with this legacy, we need to add more and more e-learning resources for

the benefit of the teachers and students. Library is presently using SOUL software for its internal working. It is updated timely. Also the OPAC system is used to utilize the library resources effectively. Similarly newer e-learning resources like journals, databases etc. should be identified and subscribed taking into account the recommendations of the library committee. Recommendations of the teachers and students also need to taken into account while subscribing any resources. Appropriate training to the staff and the students for using the e-learning resources is provided through orientation program conducted by the librarian at the beginning of the academic year.

4. **Administration:** To provide a hassle free, convenient and economical process, maximum of the administration should be handled with ICT based technology. Facilities should be provided for maintaining admission data, fee payment, e-copy of bonafied certificate, e- copy of salary certificates etc. College has its own ERP software maintain by DOT.Com Services.

5. **Examination:** The Institution is underway to procure an online system through Sant Gadge Baba Amravati University online portal to automate the entire process of examination system i.e. filling of examination forms, obtaining hall tickets, receiving of examination papers, uploading of marks, etc. everything has to be done in online manner. Utmost secrecy and confidentiality needs to be maintained while handling examinations and work needs to be done utmost care and caution. Controller of Examinations of college needs to supervise the entire process of examination under the guidance of the Principal of the college.

6. **Alumni:** In order to strengthen alumni interaction, online registration process should be Started providing facilities like registration, information of college activities, prominent alumni, milestones achieved by alumni, feedback and many other aspects. For this purpose at the college level faculty coordinator be appointed to take care of the entire activity.

7. **Feedback:** An online Feedback mechanism to be developed and put in place so as to get regular feedback from Students/Alumni/ Parents etc. By considering the feedback of every faculty, they are graded according to 4 point scale (Satisfactory; Good; Very Good; Excellent) and rewarded/ improvised accordingly.

8. **Bio Metric**: Bio metric facility to be in place to monitor the punctuality and regularity of the staff by recording the in and out time swipes.

9. Committee/ Authorized person to look into the requirements and maintenance of the above e-governance softwares

Ref. No.   Date :

This is to certify that Gawande College of Pharmacy, Sakharkherda located at rural place Sakharkherda. The College was started with B.Pharm as the main stream in the year 2017 which is affiliated to Sant Gadge Baba Amravati University, Amravati. The College is committed to excel pharmacy education in teaching, training, and capacity building. The education also caters to develop technical human resource, novel approach and vision, development and training future health care professional in the field of drugs and pharmaceuticals. To communicate character education has always been an important objective of our education system. We have constantly endeavored to teach good values and good citizenship to the students. Quality education is about developing virtues and good habits, which lead students to responsible and mature adulthood. Education is not just a process of giving knowledge for a future job but also a lifelong process, which creates an understanding of moral and ethical values. The student centric academic infrastructure aims at overall development of the students and in developing outstanding skills. We hope to create an atmosphere of admiration for education and a healthy environment.

College having E-Governance in the following area:-

a) Administration: - To provide a hassle free, convenient and economical process, maximum of the administration should be handled with ICT based technology. Facilities should be provided for maintaining admission data, fee payment , e-copy of bonafied certificate, e-copy of salary certificates etc. College has its own ERP software maintain by DOT.Com services.

b) Finance and Accounts: - For ease of maintaining accounts and fee collection, the institution is using Tally software with the support of commerce department. With new accounting methods and compliances, it has become necessary to procure other software as well. The institution as
